

First name:	Surname:	Brief overview of your background and experience in this SIG subject matter: (maximum 150 words)	What motivated you to put yourself forward for election to the APM Contracts and Procurement SIG committee? (maximum 150 words)	What qualities, skills and experience do you think you'll bring to the APM Contracts and Procurement SIG committee? (maximum 150 words)
Ayoola	Adeogun	I have over 10 years of experience in operations and supply chain management, with 5 years in senior management roles, delivering services and construction development projects. In my role as the Business Development Manager for HMM Group, I was able to develop a series of supply contracts for the procurement of services in eCommerce and events management. I further honed my skills in putting together building, and supplies contracts as well as facilities management contracts as a supply chain director in the education sector. I am very passionate about urban development projects as a platform for reducing inequalities and improving environmental sustainability, and economic potential.	Having led a number of successful project deliveries, and have seen how inadequately structured contracts can result in poor delivery. I desire to contribute and gain broader experience within a larger community of project managers. I have taken up an interest in urban projects with conviction in their potential to scale up sustainability when rightly scoped.	I have developed skills in negotiation, team building, relationship management, analytical skills, construction projects, and supply chain management. I believe that these skills will enable me to be a valuable contributor and collaborator on the committee.
Jon	Broome	25+ years of consultancy	Interest in the subject	Handsome, debonair and modest.
Ian	Heptinstall	Current member and co-chair.	Still much to do...and finish off.	Broader experience as a project manager as well as procurement knowhow. Procurement experience and knowhow outside the project environment.

Edward	Makalo	I have worked in a construction companies and quantity surveyors as well. We create and go through the contract documents that are required for the tendering and selection process in a construction project. I also went through a mentorship programme with the International project management association and I was able to be mentored on contracts in a UK context as wepp.	I am hoping for an opportunity to share my experience with other PMs on this subject, gain experience, learn and connect with other PMs as well.	<ul style="list-style-type: none"> - Practical and logical qualities and a methodical way of thinking. - Creative and Innovative approach to problem solving. - Strong numeracy and financial management skills. - Ability to learn sophisticated design and costing IT packages. - Writing clear and precise reports and to relate complex information in a simple way to diverse range of people.
Philip	Reese	Ongoing involvement in C&P SIG. Chartered MCIPS and Chartered Quantity Surveyor. Over 25 years experience in C&P.	Ongoing involvement in SIG projects.	C&P knowledge. Willingness to be involved in preparation and delivery of events, papers and webinars.
Sarah	Schutte	Practising solicitor-advocate for 20+ years, specialising in construction & engineering projects and project management offering 'end to end' legal consultancy and professional training. Public and private sector clients across a raft of industries. Probono work in STEM and student careers/ coaching. SIG Volunteer since 2016, nominated / finalist Volunteer of the Year 2021 with 2 highly-popular series of webinars, plus other events online and F2F, and written support (interviews, blogs, podcasts etc). The work encompassed within C&P SIG is my 'home territory' and my niche practice of law+PM is unusual. Disseminating complex	With a raft of ideas that we have struggled to fulfil, made more difficult by COVID, I want to streamline the committee's activity load, and drive efficiencies, by working with other like-minded members to make this SIG even better! I am knowledgeable, enthusiastic and able across the broad remit that is Contracts & Procurement, and I understand the jigsaw of other SIGs and would seek to improve and exploit the benefits of having such diverse but specialist groups within the APM.	As an experienced legal practitioner and trainer, I know my way around all sorts of contracts, and I can translate the jargon associated with difficult legal concepts for PMs. Having been a Senior In-House Counsel, I know what PMs find challenging, and with empathy and experience, I can support their work and break down barriers to understanding by providing workable solutions and plans of action. I collaborate within project teams to provide the PMs with support, an ear and a contract steer!

		information and sharing knowledge and experience on contracts is at my company's core.		
Jason	Sprague	My background is in delivering innovation and transformation incorporating commercial, technological, and organisational change. In my experience, I have learned that an effective contract and a well-delivered procurement improve the chances of successful delivery of the project or programme. I believe that project professionals benefit if the strength of these tools is understood and used well. Recent projects include designing a commercial performance system in a large scale digital transformation project in the UK energy space as well as taking to market an innovative net zero engineering contract.	For the past two years, I have enjoyed my co-chair role within the SIG. Our 2022/23 business plan has two significant topics of research in data and net zero as they relate to contracts and procurement. Also, I want to continue to lead the research to address advancing agile contracts. For the next volunteer year, I would like to extend our community and bring more volunteers together in addition to authoring products within the business plan.	Effective change and building a community are something for which I am passionate. I wish to involve as many in the work of the SIG. With over 20 years of transformation leadership experience across numerous sectors, I believe my domain knowledge and experience will add to our community and those skills will help me increase SIG participation.
Andrew	Thorp	Providing Commercial excellence services to clients for over 30 years. Working with the APM C&P SIG as a volunteer for the last 5 years	Being involved with the C&P SIG, working closely with the leadership	Deep consulting and industry experience in Contracts and Procurement. I'm a Partner @ EY Consulting and lead on Commercial services for Infrastructure clients.
