I work from home and would also like to further develop my professional network. I am also seeking a new challenge after 10+ years as a project management professional. I am passionate about the importance stakeholder management, risk management and benefits realisation. I have a experience organising events and conferences as well as social media experience.
Jack	Ince	I am eager to volunteer for the branch and get some experience behind me so that when I come to look for employment in project management, I stand the best chance I can. I feel that being on the committee will expose me to great opportunities for my career as well as giving me a chance to have an active role in the project management community.	I am an events management student just about to finish my second year studies. I can bring event management experience as well as contacts in the event / hospitality sector I have made through university. I feel that this will come in handy when managing any events the Branch may put on. As well as this, I feel that as a student I will be able to represent a large portion of the project management community who may still be in employment. Moreover, I can provide direct links to my university in the event that the branch would like to hold an event for students.
