APM Governance SIG - 2022 to the future

Our prime target audience remain the influencers of governance (CxO, Comp Secs) as well as APM membership.

Communications were a key output last year, with committee members running 10 virtual meet up sessions across all governance topics, giving the opportunity to network and for discussion.

A joint SIG conference with APM Assurance SIG, [Project ring of confidence - Data driven governance and assurance](#) took place in May.

The SIG will continue to spread the word via outreach and blogs/articles that good governance is the key critical success factor for project management.
